THE BRAINLINE SYLLABUS

The Independent Examination Board (IEB) sees education as learning that must be innovative, have integrity, and be internationally comparable. Brainline is registered with the IEB and therefore uses an IEB-aligned curriculum – complying with the statutory requirements of the CAPS curriculum while adapting the content and assessment to focus on problem solving, and critical and creative thinking rather than rote learning. This ensures a high educational standard and is comparable to accredited international curricula such as Cambridge, preparing learners for the real demands of the post-school environment.
